I, Mark L. Lorbiecki, represent that I am the attorney of record for this invention.

An Office Action rejected Claims 1 through 27 as being unpatentable under 35 U.S.C. §103(a) over Muller, et al. (U.S. Patent Number 6,606,034). The assignee for Muller et al. is Honeywell International, Inc. The assignee for the present application is Honeywell International, Inc., the same entity. The assignee entities for the patent and the application are, therefore, the same.

I further represent to the United States Patent and Trademark Office that the subject claimed invention and the cited reference, Muller, et al., were, at the time the invention was made, owned by the same entity, now known as Honeywell International, Inc.

The reference is appropriately removed from the prior art as not being "by another."

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States

Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,
